

The item in this fonds was originally listed with the records of Lothian Health Board (ref: LHB37/20/5). The Board had presumably inherited it and deposited it with Lothian Health Services Archive along with other records. No other information on provenance is known.

As the item would have been created by the County of Haddington it was decided to create a separate fonds for this administrative unit. The County of Haddington existed until 1921 when it was renamed the County of East Lothian. The item continued to be in use after 1921 and includes letters addressed to the County of East Lothian.

AS 5/2010

1        1913 – 1949
